

Hello!

The dates the Air Pollution Control Division (Division) will present proposed revisions to Colorado Regulation 8, Part B to the AQCC have changed.

During the current ongoing stakeholder process, the Division received a number of comments from concerned stakeholders regarding the timeframe for this broad rulemaking. The Division recognized that a number of issues caused these concerns: response to the current pandemic, the extent of the proposed revisions and the busy time of year for a large number of stakeholders involved in the process.

The Division heard these concerns. Therefore, the Division discussed with the AQCC the possibility of sliding back the Request for Hearing to allow additional time for stakeholders to review the proposed revisions and meet with the the Division to discuss the proposed revisions. The AQCC granted this request. The Request for Hearing is now scheduled to take place in October 2020 and the Hearing on the proposed changes is anticipated to take place in January 2021.

Please continue to check the Regulation 8, Part B stakeholder page at <https://www.colorado.gov/pacific/cdphe/colorado-regulation-no-8-part-b-asbestos-rule-revision> for updates and more information.
